## Medicina Alternativa International

The Medicina Alternativa is an international organization which was founded in 1962 and pursues the same objectives as the World Health Organization (WHO). 1962, the WHO and UNICEF hosted a international conference in the USSR, after Alma Ata to the University of Kazakhstan. At this conference, a global strategy on public health and preventive medicine, "Health for All by 2000", agreed. The content of this strategy was and is that all the available therapies, orthodox and traditional, recognized and approved. the Medicina Alternativa was formed as an international organization, based on the

organization and requirements of the World Health Organization was registered in 1962 in Alma Ata. Initially the membership was members from 46 countries. The first chairman was Prof. V. Inyu, Kazakhstan in the USSR. The deputy chairman was Prof. Dr. Jos Schade, Summary of objectives: (1) The promotion of scientific research, high standards of professional ethics, competence, of therapists. (2) The dissemination of knowledge and philosophy meetings, conferences, seminars, workshops, reports, papers, promote a broad public interest and the drug and all areas of knowledge the primary health care that is based as "essential health care by acceptable methods and technology. This is made generally available without restrictions and costs that a community or a country can. This has account. Primary health care is based on a special training and care workers, doctors, nurses, midwives, auxiliary-, and social person , the Medicina Alternativa has laid down the guidelines of the World Health Organization (WHO) procedures and regulations, the so-called Code of Ethics. Trained receive after graduation, and the certification by the "The Open International University for Complementary Medicines" a license to practice the learned therapies. However Therapeuten are also on the laws and regulations of their country, in addition to the code of ethics, bound. Codex of Ethics is the general guideline for all practitioners. As students from many countries around the world had problems in Kazakhstan to attend the courses, we decided to shift the headquarters to Western Europe. few years later moved to the subsequent (second) Chairman, Prof. Dr. Jos Schade, MD, Ph.D, after the organization in the Netherlands Houten, Utrecht. At the time, Dr. S. Yasuda was the chairman of the organization. But after students from the countries of the Third World and developing countries are difficult or impossible to apply the high cost of living in Western Europe, , but we wanted to contribute to the regulations adopted by the WHO as invoice, the training center has decided to relocate to Sri Lanka (Ceylon). The new chairman was Prof. Dr. Sir Anton Jayasuriya. Medicina Alternativa was originally in The Institute of Acupuncture in Colombo South Government General Hospital, Kalubowila, Sri Lanka established. To date, over 29,000 students Medicina Alternativa was formed from 120 countries. Under the auspices of the Medicina Alternativa International have in the last 25 years the regional associations training courses, symposia and conferences on five continents and in over one hundred countries performed. 1987 it was decided to base the open International University for Complementary Medicine is an intensive clinical training at various complementary and alternative therapies perform this connected in collaboration with other organizations. The Sri Lankan government has been the law for The Open Requests to approve International University for Complementary Medicines, this legal form of a privately funded university. Since March 1988 financial statements are certified and training service programs based on the UN on "Health for All by the Year 2000" conducted. The Open International University for Complementary Medicines is part the global efforts of the WHO to improve the education and health until 2000. His Excellency JR Jayewardene, former President of Sri Lanka recognized by letter No. 196/1, 25 March 1988, the Open International University for Complementary Medicines as private funded body has awarded in August 1989 and the honor guard. Professor Sir Stanley Cook, the Chairman and Mr. Perera was Eardly Esqr of legal advisers. Since then, now for more than 30 years, is the internationally OIUCM führend in the development and promotion of complementary and alternative medicines. OIUCM address: Company Secretary # 29, Buddhist Central Colombo 06 . Sri Lanka The affairs of the OIUCM be controlled by the directors, both locally and internationally.
